

MULHALL STORY BEARS ON CONGRESS FIGHT IN JERSEY

S. Wood McClave, Accused by Him, to Be Called as Witness.

WORK FOR 'UNCLE JOE'

Manufacturers Were Especially Anxious About Election of the Ex-Speaker.

WASHINGTON, July 12.—The Senate lobby hunters to-day interrupted Col. Mulhall's story of his activities as a lobbyist for the National Association of Manufacturers long enough to summon S. Wood McClave of Grantwood, N. J., as a witness. In his testimony yesterday Mulhall had described his efforts in 1910 to secure the election of McClave over William Hughes in the Sixth Congress District of New Jersey. Hughes is now a United States Senator. Mulhall declared that he paid nearly all of McClave's expenses as the Republican candidate. He called McClave a "tightwad" and made other statements not calculated to benefit the Grantwood man.

A special election is to be held in the Sixth Jersey district next Tuesday on account of the death of Judge Martin, the Democratic candidate who was elected over McClave last fall. At the special election McClave is again the Republican nominee. A. C. Hart is the Democratic candidate.

Mulhall got a little ahead of his regular story in going over the McClave incident yesterday and the Republican members of the committee accused the Democrats of playing politics with a view to the special election next Tuesday. The committee decided to-day to call McClave as a witness.

Before McClave was summoned Mulhall described how the National Association of Manufacturers proposed to concentrate its energies, if necessary, for the reelection of former Speaker Cannon in the 1918 campaign. A letter bearing on Cannon was written to Mulhall by Secretary Schwedman of the manufacturers.

"I always understood Schwedman and Van Cleave looked after Bartholomew and that the brewery interests helped," replied Mulhall.

TABLE CAMINETTI BILL, M'REYNOLDS ACCUSED

Democrats Charge Off Action in House and Republican Leader Blames Attorney General.

WASHINGTON, July 12.—By almost a unanimous party vote, 228 to 94, disposition of the Caminetti-M'Reynolds defense was checked off to-day in the House. Arrangements had been made for four hours' debate on the controversy. A dozen members had speeches prepared. Representative Byrne of Tennessee spoiled everything by moving to shut off the talk. A hot Republican filibuster developed, but it was ineffective, and the House finally voted to table the resolution calling for the commission to the House of all papers in the Caminetti-M'Reynolds case.

Republican Leader Mann later issued a statement charging that the resolution was dropped by the Democrats in the House at the instigation of Attorney-General McReynolds.

RUN ON A NEW HAVEN BANK.

Depositors Promptly Paid and Trouble Story Denied.

NEW HAVEN, Conn., July 12.—A run on the New Haven Savings Bank, considered one of the strongest institutions in the city, occurred to-day, a steady stream of depositors passing the teller's window all morning and this afternoon. They were paid as fast as they presented their books. The officials of the bank attribute the run to a rumor starting from an unknown source to the effect that there was financial difficulties at the bank.

In a statement given out this afternoon they declare that there was "absolutely no truth in any statement concerning any financial embarrassment of the New Haven Savings Bank." The bank, they state, is able to meet all liabilities and has a large surplus still available.

The bank's assets are given as over \$15,000,000, and the deposits slightly in excess of \$7,000,000.

When the doors were closed at 3 o'clock a large crowd of depositors still sought admission, some of them urging against the doors as they swung in an effort to force their way in. The bank, it was stated, will open for business as usual in the morning.

Aviation Pupils Killed.

FRANKFORT-ON-THE-MAIN, Germany, July 12.—An aviation pupil named Westphal was killed while flying at the aerodrome in the suburb of Niederrad today. He touched the wrong lever of his steering apparatus, causing the aeroplane to fall from a height of twenty feet.

WALL STREET.

Market Closing.—In the last hour New Haven declined to 100, while a great many stocks were selling at the best prices of the day. Union Pacific sold at 101 1/4, Steel 114, Reading 91 1/4, Pennsylvania 113 1/4, Lehigh Valley 101 1/4, St. Paul preferred 101 1/4, and Smelters 92 1/4. This latter stock receded to 91 1/4 at the close, which was active, and prices were maintained near to the high level established around 2 o'clock. Most issues showed advances from 1-4 to 2 1/2 points. Total sales, \$22,000 shares.

Heavy buying orders were again concentrated on the floor in the initial dealings. Sales were made 1-4 of a point apart at the opening. Buying continued in large volume all through the first fifteen minutes, but on the higher level established realizing sales were induced in large volume, and part of the advance was lost. Increased weakness was shown in California Petroleum on the information of a coming interruption to dividend payments on the common stock, which opened at 21 1/4, a loss of one point over night, and sold down to 20 1/4. Around 11 o'clock large buying orders appeared in Union Pacific and United States Steel, which moved up one point and helped to advance a number of issues.

California Petroleum recovered from 20 1/4 to 21 1/4. Interborough Metropolitan preferred rose 1/4, while the Copper stocks were strong. Up over a point, with fractional advances in most issues. London was said to have bought about 15,000 shares. After 12 o'clock prices reached a higher level, but California Petroleum was again under pressure, declining to 19 3/4. New Haven, which had risen to 101 1/4, declined to 100. Trading was quiet, with stocks selling a little below the high prices reached around midday.

The market was dull and steady with prices well maintained between 1 and 2 o'clock.

The Closing Quotations.

The following were the highest, lowest and last prices of stocks for to-day and the net changes as compared with the closing prices of yesterday:

	High	Low	Last	Net
Assamined Copper	22 1/4	22 1/4	22 1/4	+1/4
